Profile

Passionate self-taught front-end developer focused on building clean, efficient, and user-friendly web and mobile applications. Skilled in solving complex problems and continuously learning new technologies to enhance my expertise. Currently pursuing a Computer Science diploma at Abubakar Tafawa Balewa University, Bauchi, Nigeria. Open to part-time remote jobs and internship opportunities to gain practical experience and contribute to exciting projects. Ready to collaborate on web development, app development, or any tech-related ventures—let's connect!

Education

Diploma in computer science
Abubakar Tafawa Balewa University

2023 – 2025
Bauchi, Nigeria

Projects

Bulus-dev portfolio V1

This is my personal portfolio website, designed to showcase my skills, projects, and experience as a developer. It includes an 'About Me' section where I share details about my background, education, and journey as a developer.

Demy's Studio

Demy's Studio is a portfolio website for a photography studio to showcase its potential and display its work to the world. The website integrates with the Unsplash API to fetch high-quality images from various categories, such as products, events, and lifestyle.

FewerCharacters

A web app leveraging serverless functions and the OpenAI API to generate concise text summaries. Built with HTML, CSS, and JavaScript, with server-side logic handled through serverless architecture.

Task Manager App

A task management tool using IndexedDB for storage, Chart.js for data visualization, and a Vanilla Calendar library for scheduling.

Skills

Languages & Frameworks — HTML5, CSS3, JavaScript (ES6+), React.js, Python, Tailwind CSS, Node.js.

Technologies & Tools — Git & GitHub, Vite, Firebase, IndexedDB, Figma.
